

We appreciate everything our Pearl Homes are doing to help restore and protect our natural environment in Virginia Beach. On August 15th, we had 653 Pearl Homes and the number continues to grow. The program's one year anniversary is November 1, 2012. By then, we hope to reach our first year goal of 1,000 homes. Help us reach that goal by telling your friends and neighbors about this program.

PEARL HOMES

JUNE 1, 2012 – AUGUST 15, 2012

Aeries on the Bay
Chris & Trista Imrich

Broad Bay Island
Angela Vanderbijl
Jan & Dave Erbe

Eastern Park
Lyman Speckheuer

Middle Plantation
Brent James

Thalia
Angela Evans

Alanton
Monica Lovett
Teri & Scott Rigell

Crystal Point
Donna Slack

Lynn Shores in Thalia
Clay & Linda Maguire

GET A JUMP ON HOLIDAY SHOPPING

Purchase copies of our beautiful coffee table book about the Lynnhaven today for everyone on your list!

To purchase a copy, stop by our office at 1608 Pleasure House Road, Suite 108, any day between 9:00 am and 5:00 pm.

Copies of our book are also available at the Museum of Contemporary Art Gift Shop, the Old Coast Guard Station Gift Shop, Wild River Outfitters, Hardy's Jewelry and Lynnhaven Marine.

Look for our book and other merchandise at the Fall Festival. We have several styles of tee shirts, caps, aprons, raincoats and more! Great gift ideas for everyone!

RAIN BARRELS AND CISTERNS

Every year, Hampton Roads gets approximately 45 inches of rain. The rain that falls on hard surfaces (roofs, driveways, roadways, parking lots) runs off into the storm drain and into the river carrying a wide range of pollutants with it. Storm water runoff is our number one water quality issue. You can capture some of that rain, keep it out of the storm drain, and use it for your gardens or your pool and pond.

Over the past five years, LRNow has sold almost 700 standard 56 gallon rain barrels. That is up to 40,000 gallons of water not going into the storm drain every time we have a rain event. You can calculate the amount of water that runs off your roof in a 1" rain event by multiplying the square foot area of your roof by .625. If your roof is 1,000 square feet, that equals 625 gallons of water from your roof alone.

LRNow is continuing to offer our standard gray rain barrel, but we are going to begin offering some other options as well: a larger 150 gallon above ground cistern and an attractive 60 gallon oak barrel. We are happy to be partnering with Mike's Rain Barrels to offer these products to you. For all questions and orders, please contact our office at Kris@LRNow.org or 757-962-5398.

A. STANDARD RAIN BARREL

56 gallons — \$75 or build your own at an LRNow workshop for \$60.

Install it yourself or have it installed for \$25

12" and 24" wooden platforms are available for an additional cost of \$30 for 12" and \$40 for 24"

You can link two or more of these barrels together to increase your capacity.

Call us for quotes on special installations.

B. OAK BARREL

60 gallons — \$260.

Standard installation is \$25. 12" and 24" wooden platforms are available for an additional cost of \$30 for 12" and \$40 for 24."

C. ABOVE GROUND HOME CISTERN

150 gallon tank — \$350

Delivery and Installation is \$175

Installation includes: delivery to your home, leaf eater device, necessary pvc piping up to 10 feet, spigot, overflow and labor for a standard installation. Standard installation to include leveling of the site (removal of trees/shrubs extra), installation of rain head and conveyance to tank, installation of overflow piping, clean up of site and removal of debris.

Quotes are available for platforms and other upgrades.

LARGER CUSTOM SYSTEMS are also available. Mike's Rain Barrels, mikesrainbarrels@gmail.com, will visit your site and prepare a recommendation and cost estimate for you.
